

Minnesota Phenology

phe-nol-og-y, *noun*: periodic biological phenomena that are correlated with climatic conditions.

Tuesday, April 21, 2026, 6:30 p.m.
Founders Room (Quad 170),
St. John's University, Collegeville
(Follow the signs on campus)

Speaker:

John Latimer

KAXE Staff Phenologist

John Latimer is a retired rural mail carrier who has hosted the Phenology Show on Northern Community Radio for over 40 years. He will speak about his work getting children out in nature, and the importance of recording our observations. He'll highlight some "coming attractions."

Sponsored by Minnesota Master Naturalist Central Chapter, Central Minnesota Audubon Society, St. Cloud Flower and Garden Club, Stearns County Area Horticultural Society, and Wild Ones St. Cloud Chapter.

Free and open to the public.
